## SUMMARY

Computer Science student who builds full-stack web applications with Node.js, Express.js, React, MongoDB, and PostgreSQL, including a session-based authentication system with Discord OAuth 2.0, REST APIs with relational queries, and an e-commerce front end with Jasmine unit tests. Seeking a full-stack development internship and campus placement opportunity.

## EDUCATION

- **Vasireddy Venkatadri Institute of Technology** — August 2024 – May 2028 (Expected)
  Bachelor of Engineering in Computer Science — Nambur, Andhra Pradesh, India
  - CGPA: 8.79/10
  - Specialization: Cybersecurity, Blockchain Technology, Internet of Things
- **Chalapathi Junior College** — June 2022 – March 2024
  Class XII (MPC) — Guntur, Andhra Pradesh, India
  - Percentage: 96.2%
- **St Josephs High School** — June 2021 – March 2022
  Secondary Education (Class X) — Narasaraopet, Andhra Pradesh, India
  - Percentage: 87%

## SKILLS

- **Programming Languages:** Java, Python, JavaScript, C, SQL
- **Web & Frameworks:** HTML5, CSS3, React, Node.js, Express.js, REST APIs, Passport.js, Vite
- **Database Systems:** MongoDB, PostgreSQL
- **Tools & Testing:** Git, GitHub, Jasmine

## PROJECTS

- **Express Authentication System** — July 2026
  *Tools: Node.js, Express.js, Passport.js, MongoDB, Mongoose*
  - Built a session-based authentication backend with Passport.js local strategy and Discord OAuth 2.0 login.
  - Stored users in MongoDB with hashed passwords, MongoDB-backed sessions, and request validation using express-validator.
  - Organized the code into modular routes, strategies, and middleware, with REST endpoints for user CRUD, login status, and logout.
- **Amazon-Style E-commerce Clone** — April 2026 – May 2026
  *Tools: JavaScript, HTML, CSS, Fetch API, Jasmine* Live Demo
  - Built a multi-page shopping front end with dynamic product rendering, cart management, checkout calculations with delivery options, order history, and order tracking.
  - Saved state in LocalStorage, loaded data from a backend API with async/await, and wrote Jasmine unit tests for business logic.
- **PostgreSQL Relationships API** (learning project) — July 2026
  *Tools: Node.js, Express.js, PostgreSQL, node-postgres*
  - Designed one-to-many and many-to-many relationships using foreign keys and a junction table.
  - Implemented REST endpoints for CRUD and relationship queries using parameterized SQL and INNER JOINs.
- **React Chatbot** — June 2026
  *Tools: React, JavaScript, Vite, CSS* Live Demo
  - Built a chat interface from reusable components (ChatInput, ChatMessage, ChatMessages) using React Hooks for state and event handling.
- **Solace App** (team project, Smart India Hackathon) — November 2025
  - Worked in a team on a web platform for student stress management and academic support, with community forums and peer support.

## CERTIFICATIONS

***Certification***

- AWS Certified Cloud Practitioner, Amazon Web Services (AWS), verified on Credly

***Course-Completion Credentials***

- **MongoDB Node.js Developer Path**, MongoDB (course completion, credential ID: MDBkcubawhnkd) — October 2026
- Red Hat System Administration I (RH124), v9.3, Red Hat (course completion), verified on Credly
- Introduction to Cybersecurity, Credly (course completion)
- Introduction to MongoDB, Simplilearn SkillUp (course completion)
- Introduction to Computer Networking, Simplilearn SkillUp (course completion)

## ACHIEVEMENTS & ACTIVITIES

- **NEXORA - The Full Stack Expo**, Second Prize Winner, organised by the IEEE Student Branch, VVIT — March 2026
- **Chairman's Counselling Club**, Selected Member, in recognition of academic performance and CGPA — February 2026
- **Smart India Hackathon**, Participant — November 2025
